SUMMARY

Aspiring Data Analyst with hands-on experience building end-to-end analytics projects and interactive dashboards using Excel, SQL, Python, Power BI, DAX, and Power Query. Skilled at transforming raw datasets into actionable business insights. Seeking a Data Analyst internship to apply strong analytical thinking and business understanding.

TECHNICAL SKILLS

Programming Languages: SQL, Python

Data Visualization: Power BI, Excel

Database Management: MySQL

Tools & Platforms: DAX, Power Query, Git, GitHub, VS Code

PROJECTS

Sales Dashboard | *Power BI, DAX, Excel*

- Designed and built an interactive Power BI dashboard tracking 15+ KPIs to monitor sales performance across regions and product lines.
- Applied DAX measures and Excel-based data preparation to enable real-time performance tracking for business decision-making.

HR Analytics Dashboard | *Power BI, Excel*

- Analyzed employee attrition trends and workforce metrics to uncover key drivers of turnover and support HR decision-making.
- Built dynamic Power BI visualizations to help stakeholders monitor headcount, attrition rate, and department-level metrics.

Blinkit Grocery Sales Analysis | *Power BI, Excel*

- Visualized outlet-level sales performance to identify top- and bottom-performing stores and inform inventory strategy.
- Cleaned and structured raw sales data in Excel prior to building Power BI reports for stakeholder review.

Customer Churn Analysis | *Python, SQL, Power BI*

- Explored customer churn patterns using SQL queries and Python (Pandas) to flag high-risk customer segments.
- Built Power BI visuals to communicate churn drivers and support retention strategy recommendations.

E-Commerce Sales Analysis | *SQL, Excel, Power BI*

- Analyzed revenue trends across products and categories using SQL queries on transactional sales data.
- Created Power BI reports to highlight category-wise performance and support merchandising decisions.

Netflix Data Analysis | *Python (Pandas), Excel*

- Performed data cleaning and exploratory analysis on Netflix content data using Python (Pandas).
- Identified content trends by genre, release year, and rating to summarize catalog composition.

EXPERIENCE

Data Analytics Trainee — ZillionsOfTech Institute

- Completed hands-on training in Excel, SQL, Python, Power BI, DAX, and Power Query.
- Built multiple dashboards and analytical reports using real-world datasets to practice end-to-end data analysis workflows.

EDUCATION

Bachelor of Computer Applications (BCA) — 1st Year

KLP College, Rewari

Class XII (CBSE)

RPS Rewari
